

The Work of Structural Engineers

Meet structural engineers in different jobs and hear about their work:

- **Interesting projects**
- **Different tasks solved by structural engineers**

Time and location:

27. Oktober 2016, kl. 15-17.

DTU, Bygning 303 Auditorium 43

Professor Emeritus, Niels Jørgen Gimsing, talks about bridges and bridge design in general.

Project Director Henrik Vincentsen, Danish Road Directorate (Vejdirektoratet), talks about "Frederikssund Fjord Link".

Bridge Engineer Per Kjærsgaard Andersen, COWI A/S, talks about "Working in India as Danish bridge engineer".

VDC konsulent Christian Østen Rasmussen, MTHøjgaard, talks about "VDC (Virtual design in construction)".

Design Engineer Nis Andersen, Femern A/S, talks about "Managing risks in a megaproject".

Bridge Engineer Simon Mathias Gren, Rambøll A/S, talks about "Seismic Engineering of Bridges".

Soft drinks will be served and there will be a possibility to speak to the lectures. This arrangement is aiming at students, however, everybody are welcome. The arrangement is free and registration is not needed.

The arrangement is a collaboration between DTU-Byg and IABSE Deanmark.

Jens H. Nielsen på vegne af IABSE og DTU Byg
