ABOUT WORLD'S WILDEST BRIDGE BUILDERS

A bridge building competition founded in 2021. In 2023, thirty participants including craftsmen apprentices, engineering- and architectural students from around Denmark will compete in building three bridges in concrete, wood and steel. Judges from Rambøll, COWI, Dissing+Weitling and 3F will choose the winner. Similar in 2021, bridges were built across the canals at Engholmene, Copenhagen. And in 2022 the same event to place in Kanalbyen in Fredericia. In 2023 the harbor in Aalborg will be the site of the event.

With the competition, the organisation behind the events wishes to celebrate Denmark as a leading bridge building nation. They also celebrate the coming generations of craftsmen and women, architects, and engineers, and intend to give young people a unique possibility to work across disciplines.

SIGN UP FOR THE EVENT

Make sure to sign up for the event before September 20th 2022 by sending an email to SGA@sbfdk. Drinks and snacks will be provided.

We hope to see you!

Best,
World's Wildest Bridge Builders, IABSE and DTU
